Smallpox Cases Confirmed By Public Health Officials

At least two cases of smallpox have been confirmed at Belle Glade and three others are listed as suspected cases by public health authorities who made the discovery Saturday at Belle Glade when a 25-year-old Puerto Rican was found to have the disease.

Assistant director of Palm Beach County Health Department, Dr. R. E. Kaufman, was at Belle Glade Monday to trace the man's contacts. Dr. C. L. Brumback, county health director, was at Belle Glade Wednesday with state and U. S. public health officials to investigate and advise local doctors.

Dr. Brumback said the cases were the first in Palm Beach County at least since 1950 and the first in the state in the past four years.

Glades residents by the hundreds flocked to clinics and doctors' offices at Pahokee and South Bay to be vaccinated for smallpox. The influx in requests for the serum drained resources in the county.

To complicate matters somewhat, doctors report that a number of chickenpox cases have been discovered. They urge that people be vaccinated for chickenpox as well as smallpox. The vaccine was brought in immediately.

Don't Panic
People are being asked to do three things during this present crisis: 1. Don't become afraid or hysterical. 2. Brumback urged.

Get vaccinated by your family doctor if possible or at one of the county clinics without fail. 3. Stop believing rumors about what's happening.

We want people to do what they should have been doing all along. Get vaccinated not only for smallpox but for all the diseases. This points out how negligent the public may be in not checking with their local doctor and keeping up to date (with shots). Dr. Brumback said.

What Else?
"One of the most powerful weapons is vaccination," he continued. (Continued on Page Eight)

Membership Cards And New Rules Ordered For Teen Town Operation

Membership cards and some restrictive regulations were planned for Belle Glade's Teen Town in a crack-down of some noticeable rule infractions at the recently opened teen center, according to Mrs. Rita Whortner, a member of that organization's board of directors.

About membership cards, she said, "We are having to do this to eliminate some of the kids who have quit school or married ones who wish to go to Teen Town. Teen Town is for teenagers who are attending school and who want to enjoy our rules and have good clean fun... No one else will be given cards."

She went on to say that the organization would no longer tolerate those persons who start fights, drink alcoholic beverages or start any form of misbehavior.

Chaperones Needed
"We need chaperones," she said. "We want to thank the few parents who have chaperoned at Teen Town, but for some of you other parents, I have this to say: 'Do you think your responsibility ends when you put your kid 50 cents and say 'Go to Teen Town.'"

"We're not running a place for you to send your kids while you go out and enjoy yourselves. It is up to every parent to see how your children get to and from Teen Town so we won't be standing out front after 12 o'clock with someone and waiting for you to come back. We want to remember that they have a child to pick up. This has happened in the past. This is fair. We have parents here who have time to spend one evening of a month to their children but will expect two people to chaperone 250 or 300 kids and know whether her Joe or Jim is smoking or drinking vodka or if her daughter is still in Teen Town. Now I ask you, in this fair? We have latter part of next week for parents but never go down and chaperone. Some mothers will say, 'Why didn't you call me?' but it's easier for them to call us than for us to have to call 30 (Continued on Page Eight)

Read Colossians 3:1-4
If then we have been raised with Christ . . . you have put off the old nature with its practices and have put on the new nature, which is being renewed in knowledge after the image of its creator. (Colossians 3:1, 9, 10)

What do you believe about the Resurrection? Have you any trouble about the Resurrection? Do you believe in the Easter story? Questions like these were being put to the candidates for the ministry.

The candidates' replies were straight, strong, and simple. "I would not be coming into the ministry," said one young man, "unless I had the living Christ."

Unless one has the living Christ indeed, his faith is vain. Jesus' resurrection as an event is the cornerstone of the Christian faith.

But do we believe in Easter as an experience? Have we had any trouble with being raised with Him into newness of life? Do we believe enough in this Easter message to find it out for ourselves?

The "Hallelujah Chorus" on the lips is to be sung also in the life. Eternal life is here and now and continues, enlarged and glorified, forever.

Have you and I entered into Easter as an experience? PRAYER: O God, by Thy might Thou dost raise from the dead our Lord Jesus Christ. By the same divine power, raise us, we beseech Thee, into newness of life, that we may live together with Christ, now and throughout all eternity. In His name we ask it. Amen.

THOUGHT FOR THE DAY
If Christ lives in us, we are living the eternal life.
Charles Daniel Brodhead (Penn.)

... THOUGHT

By the Rev. August Koerber
"I waited patiently for the Lord; and He inclined unto me, and heard my cry. He brought me up also out of an horrible pit, out of the miry clay, and set my feet upon a rock, and established my going." Psalm 40:1-2

When one is deeply moved it is difficult to keep silent. Deep feelings always impel to utterance of some sort. But there are times when it is difficult to bring a song to one's lips. Everything seems to be out of tune like the notes of an instrument with broken strings.

Discontent has taken hold of us; resentment has mastered us. We feel like those consigned to a dungeon with deep walls. There is nothing that seems able to lend any brightness and cheer to our feelings. No power on earth seems able to give us any cheer. What seems to be solid rock on which to stand turns out to be but a cloud of dependency in which we threaten to founder and sink.

It is at such moments that God hides His face upon us. He is sent by Him on a mission of love. Turning to God, however, does not mean getting God into our grip. It does mean yielding to God's grip upon us. It means putting ourselves in God's hands; letting God master us. Our necessity is God's opportunity. He is indeed a God whom the heavens of heaven cannot contain; yet he assures us that God hides His face upon us in the heart of such as are contritely aware of their weakness and are ready to "walk humbly" in His sight. He is a God whose delight is to show mercy; ready at all times to assure us: "Not disturbed, I am thy God; I have redeemed thee; thou art mine."

I believe the West will eventually win the world to its side, because of its belief of the freedom and the dignity of the human personality.

Uncle Dan From Democrat River Says

Dear Mister Editor:
I see by the papers, where this scientist in the Pentagon building says if there are space gods, they can land men on the moon, it'll be easy to explore Mars from there. He has the opinion that we'll find some sort of folks living on Mars.
Now I ain't got no objection to a fellow having an opinion, because you newspaper folks has 'em all the time whether you got any facts on hand or not. But if them science fellows thinks folks is living on Mars they ought to keep quiet about it. The ought to turn their attention to inventing better striking matches and easier riding cultivators and let Mars alone. We can't even run the world we got, let alone taking on another one. Right now half the world we got is starving to death and luxury is about to get the best of the other half, and we don't git through with

one war till we start stockpiling for the next one.
And for all we know, the folks on Mars ain't no better off than us, and about the second or third trip we make up there, after we git communications established, the Government on Mars will be trying to git a loan from us. And after we established the Government on Mars, I don't think we could stand another one. Of course, there's a chance that the folks on Mars is in gooder shape than we are, and in that case we might swing a loan from them. But that's mighty risky and I think we'd be playing the percentages if we'd let Mars alone.
We had a exciting session up at the country store Saturday night. Ed Doodittle's grandpaw is visiting him and he was the center of attraction. He's 94 year old and can shake out a long haired wet dog can shake out water. Grandpaw says that with all these wonder drugs and vitamin pills, this generation coming on now ain't got no excuse fer ever dying. He allowed as how it he'd had them things when he was coming a long he'd live to be older than Methuselah.
Grandpaw told the fellers that he'd been going to church regular fer 80 year and not onet had a preacher ever writ him a letter asking about his immortal soul without adding a postscript requesting he git his pledge paid up. But he's a mighty religious feller, said he tried to live so's the preacher that preached his funeral wouldn't have to ask the Lord's forgiveness fer lying. That's a pretty good ceder, Mister Editor, and I think I'd trust Grandpaw with my pocketbook.
Yours truly,
Uncle Dan

Smallpox Cases (Continued from Page One)

There is little else one can do to prevent the spread of highly contagious disease. Who Should Get Shots? Public health officials recommend booster shots for smallpox every five years. The U. S. Army says three years. Local doctors suggest every two years. Smallpox is especially serious among small children and older persons.

Usually shots are given infants over six months of age. No one is immune. Even those who have had smallpox can catch it again, doctors say.

Little Wailing

A steady stream of patients has been observed at each doctor's office or clinic. Belle Glade's county clinic inoculated over 300 in one afternoon. At least 500 more were attended by one doctor's office. Some 200 passed through Pahokee's county clinic. Except for unavoidable instances, there is little or no waiting at most offices.

Dr. Brumback pointed out that supplies are coming as needed, and that no one who wants a vaccination will be unable to obtain it.

How About Schools

There will be no special clinics at schools operated by the county, according to the county health department.

There has been criticism of the dim lights. Lights were not dimmed, she said; however, Teen Town wouldn't afford spotlights out front since someone was kicking them over and breaking them.

"They cost \$425 each. If some of you parents would like to see these lights put back out front, you can donate cash or light bulbs. If there is anything that our parent's don't like about Teen Town, I'd appreciate it if you will tell me, not your neighbor, so I can do something about it."

In speaking of the one-way traffic plan and reduction of possible turns from Main St. at Hillsborough Canal bridge, Talmadge said the engineer John H. Klink, Jr., provided information showing 58 possible points of collision in a one-block area of Main St. One-way traffic would cut that number of possible collision points to 37. Talmadge again confirmed that there was plenty of time to study all problems of the new system before it goes into effect.
